

Professional Summary

Motivated and adaptable Junior Software Developer with hands-on experience building real-world systems using PHP, JavaScript, MySQL, and front-end frameworks. Proven ability to design and enhance web-based applications with QR integration, Chart.js visualizations, and DevOps practices. Adept at translating requirements into scalable solutions. Eager to contribute to dynamic development teams with a focus on clean code, performance, and usability.

Work Experience

Servo IT Solutions - Angeles City, Pampanga

Junior Software Developer (May 2025 - Present)

Associate Software Developer (Jun 2024 - May 2025)

Software Developer Intern (Feb 2024 - May 2024)

- Collaborated with a cross-functional team to build backend services hosted on-premise, improving data security and access speed.
- Contributed to front-end development using React and TypeScript, enhancing UI performance and maintainability.
- Developed backend features and APIs using C#, .NET, PHP, and MySQL to support business-critical operations.
- Enhanced a Banquet System, improving performance and reducing downtime by 20%.
- Integrated a CAS (Compliance Accounting System) using PHP, JavaScript, jQuery, AJAX, and REST APIs.
- Built CI/CD pipelines with Git and DevOps workflows, reducing deployment time by 50%.
- Implemented Chart.js for analytics dashboards and QR technology for system features.

Projects

Libreng Gamot Program - RHU San Luis (Sep 2023 - Feb 2024)

- Built a full-stack inventory system for municipal health units using PHP, JS, MySQL, and jQuery.
- Integrated QR prescriptions, reducing manual errors by 40%.
- Created interactive dashboards using Chart.js to support inventory decisions.

- Live demo: sllibrenggamot.free.nf

Technical Skills

- Languages & Frameworks: PHP, JavaScript, HTML5, CSS3, jQuery, Node.js, React.js, TypeScript, C#, .NET
- Tools & Platforms: Git, GitHub, VSCode, Bootstrap, AJAX, Chart.js
- Database: MySQL
- DevOps & CI/CD: GitHub Actions (basic), Agile/Scrum exposure
- OS: Windows
- Soft Skills: Problem-solving, collaboration, fast learner, communication

Education

Pampanga State Agricultural University - Magalang, Pampanga

Bachelor of Science in Information Technology (BSIT) (Sep 2020 - Jun 2024)

Career Development

Career Development Break (Jun 2022 - May 2024)

Deepened understanding of programming and web technologies through self-study and personal projects.

Practiced Git workflows and built systems with real-world use cases.

Returned to the workforce with hands-on readiness and clearer career direction.
